Questions?

Section title

One or two lines here are fine! Do your best to use meaningful titles

You can use paragraphs or nested enumerations

- We have plenty bullet styles available!
 - And you can go as deep as you want
 - But do not abuse this feature, otherwise you will lose clarity
- And of course do not push too much text in a single slide, people hate reading :)

Pros, cons or short concise lists

Pros

- Generic good design comment
- Second generic good written comment
- Generic good charts
- Whatever

Cons

- Product pitch, not research
- Closed source
- Manipulated benchmarks
- I do not like the authors

This is a non-highlighted code sample

```
fn fib (n: i32) -> i32 {  
    if n <= 0 {  
        return 0;  
    } else if n == 1 {  
        return 1;  
    } else {  
        return fib (n-1) + fib(n-2);  
    }  
}
```

This is a highlighted code sample

```
fn fib (n: i32) -> i32 {  
    if n <= 0 {  
        return 0;  
    } else if n== 1{  
        return 1;  
    } else {  
        return fib (n-1)  + fib(n-2);  
    }  
}
```

This is an example enumeration with math!

1. Here you can see an enumeration
2. It has items
3. The items are numbered

$$f(x) = \sum_{i=0}^{\infty} \frac{f^{(i)}(x_0)}{i!} (x - x_0)^i$$

Put your not funny quote here

[Oscar Wilde] I have nothing to declare except my genius.

Example slide with Title

Example

The demonstration is flawed.

Solution

Quit your researcher job.

Plain frame with title
